REVITALIZING THE NATIONAL FOREST SYSTEMS

Strategic Planning Meeting
July 17 & 18, 2012

YOU ARE INVITED TO PARTICIPATE IN THIS IMPORTANT ACTION ORIENTED STRATEGIC PLANNING MEETING WHERE WE ARE BUILDING TEAMS TO “TAKE ACTION”

NEED FOR ACTION: Enabling Acts for the National Forests started in 1891 and have been added to over the years, but National Forests and the Forest Service have ceased to fulfill the intent of the Acts due to political pressures and environmental action. This has caused multiple negative results effecting our National Forest Systems.

PURPOSE OF STRATEGIC PLANNING MEETING: Develop a strategy for approaching and encouraging Congress to initiate a comprehensive review of the National Forest System and the laws governing its management to ensure this valuable national resource is protected and managed consistent with Congress’s intent when it established these lands.

OBJECTIVES OF STRATEGIC PLANNING MEETING:
1. Understand the history and current condition of the National forests.
2. Understand our goal of Revitalizing our National Forest Systems.
3. Identify roadblocks and challenges.
4. Identify strategies to accomplish our goal.
5. Detail the criteria needed to create the coalitions needed to accomplish #4.
